

## Outdoor Furniture Department

### Search For Dual-Purpose Pieces

Look for hardworking furniture. An ottoman that doubles as extra seating for your next backyard bash and a simple bench that will stand alone or cozy up to an alfresco dining table are essential for frequently used outdoor spaces. No need to overbuy, multi-task your furniture and keep your space free to move around. Trying to seat 24 people because you have that many relatives, is not practical and very expensive. Use your imagination!
