### Make a List

Begin by thinking about how you would like your outdoor space to function. Would you like it to serve as a dining area on warm summer nights? Would you like to host your next dinner party or your daughter's birthday party in the space? Is a peaceful reading nook more of what you're looking for in your outdoor room?

Make a list of the many things you would like to do in the space and use it as a guide to determine what type of furniture is necessary. If the primary function of your 12x16-foot patio is to host casual evening cocktails, there is no need for a dining table. Opt for ample comfortable seating, several side tables, and a fire pit.
